EXPERIENCE

Best TechFest Website

Webkriti | IIITM

October 2022-November 2022

- Created an event management app for techno-fest of college
- Used **HTML5, CSS3, JS** for **FrontEnd** and **Node.js, psql** for **Backend** (As rest APIs). Further used, **Netlify** and **Heroku** for **static** and **API** deployment respectively.
- This application helped the management team to track down and manage participation of user, making the process smooth.

AuthMicroservices

Winter Project | IIITM

January 2023- March 2023

- Created an application for authentication and authorization of users
- Used **HTML5, CSS3, JS** for **FrontEnd** and **NodeJS,Express, MongoDB** for **Authentication and authorization**
- This application is used to authenticate and authorize users.

Team Member

Rotract IIITM

Feb 2022 - Oct 2022

- Worked as a **content writer** in the institute's official HOG club **Rotract**.

PROJECTS

medicalit

Medical Website

Oct 2022

- A server side rendered website for Medical use.
- Used **HTML5, CSS3, JS** for server-side rendering and
- Integrated **Stripe, Leaflet** and many other tools for best user experience.

Foodies

Food Recipe Website

June 2022

- The homepage features a banner image and a navigation bar with links to recipe pages, information on different types of cuisines, and a contact page. The contact page includes a form for visitors to fill out, allowing them to send messages or feedback to the website owner. Overall, the food website project is a simple but effective way to showcase different recipes and provide information on different types of cuisines.
- CSS is used to style the website, including font styles, colors, and layout. It demonstrates the use of HTML and CSS to create a visually appealing and functional website.
